Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance guiding information disclosure on the securities market.

Based on the business performance results for the first six months of 2026 compared with those of the first six months of 2025, Pharmedic Pharmaceutical Medicinal Joint Stock Company hereby explains the reasons for the variance in business results of more than 10% between the two reporting periods as follows:

Revenue and cost of sales remained stable compared with the same period of the previous year. However, financial income decreased by 93.4%, while interest expense increased significantly due to the Company's use of bank borrowings as a source of funding, resulting in a 19.3% decrease in profit after corporate income tax compared with the same period of the previous year.

We hereby certify that the information provided is true and accurate, and we assume full responsibility before the law for the contents of this disclosure.
